SUNNYVALE, Calif., Oct. 15, 2018 (GLOBE NEWSWIRE) -- Infinera, provider of Intelligent Transport Networks, announced that Aloo Telecom (Aloo), one of the largest telecommunications groups in Brazil, deployed the Infinera Cloud Xpress and Infinera DTN-X to address increasing bandwidth demand on its long-haul and data center interconnect networks. Aloo serves more than 3,000 private and public-sector clients including cloud operators, internet content providers and service providers across 14 Brazilian states.

"Demand for bandwidth continues to grow across Brazil as more businesses move to cloud and broadband operators to expand their footprint in the region," said Sergio Brito, Director of Operations, Aloo Telecom. "Infinera's solutions are performing better than advertised at delivering the capacity we need, where and when we need it."
